

In this guide you can learn how to upgrade your Flippy Volume 1.0.0 to 1.1.0. Please read carefully as this is major update.

What's New and Changed?

- 100% code upgrade to support MySQLi extension (Note: Our scripts will no longer support MySQL extension.)
- 1 New template.
- SEO friendly URLs.
- 2 More advertisement placements.
- Bug fixes.

How to Upgrade

Upgrading from 1.0.0 to 1.1.0 is really simple. Please follow the few simple steps below.

Step 1: Backup all the files in the site that you have installed Flippy Volume 1.0.0 **(Very Important)**

Step 2: Backup your database **(Very Important)**

Step 3: Open db.php from Flippy Volume\ftp\ upgrade folder and fill out same database information as you have in your existing website. If you forgot your database information you can find it from db.php on your existing website.

Step 4: Replace old files (Flippy Volume 1.0.0) with the new files (Flippy Volume 1.1.0) located at the HotViral \ftp\ upgrade. If ask to overwrite, permit to do so.

Step 4: Update your database by pointing your browser to <http://www.yoursite.ext/update.php>.

Step 5: Delete upgrade.php.

Step 6: Login to admin control panel and navigate to settings add your website URL and save.

That's it. Now your Flippy Volume 1.0.0 has been updated to Flippy Volume 1.1.0
